# TEST REPORT

Ref. no. B/2023/24 dated 28/02/2023

**Subject:** Tests of the fixed lighting fixture model LED ALA2 600.

**Tested for:** Furnika Sp. z o.o. [Limited Liability Partnership] Limited Partnership  
 48-200 Prudnik  
 Przemysłowa str. 11

**Tested at:** Institutes for Research and Certification "ZETOM" Katowice  
 Testing and Calibration Laboratory "ZETOM" Katowice

Customer Order Index: Order dated: 10/01/2023

Laboratory Log Reference No. of Order: B/2023/10

**Test start date:** 11/01/2023 **Test end date:** 28/02/2023

This Test Report contains: 24 pages

3 copies hereof are issued to the following recipients:

1. Furnika Sp. z o.o. [Limited Liability Partnership] Limited Partnership
2. Furnika Sp. z o.o. [Limited Liability Partnership] Limited Partnership
3. LT

**Test supervisor:** Piotr Jureczko, MSc Eng.

**Tested and measured by:** Piotr Jureczko, MSc Eng. Lab Section: WE  
 Kamil Długajczyk Eng. Lab Section: WE

**Test Report prepared by:** Kamil Długajczyk Eng.

**Authorised by:**

**Approved by:**

Kierownik Pracowni

## PROVISIONS

### A. Obligatory:

1. The Test Report shall be property of the Customer who has ordered to have the test done.
2. The Test Report and all information contained therein shall only be used with the consent of the Test Report owner.
3. This Test Report shall only be used in full.
4. All test and measurement reports listed herein refer to the test objects only and shall not be construed as a quality approval thereof.
5. The work covered herein has been carried out according to its Work Plan and in line with the Management System requirements specified in the Testing and Calibration Laboratory Quality Manual.
6. All reference to this Test Report shall be made with the following statement (or its equivalent in meaning):

***Tested by the Testing and Calibration Laboratory “ZETOM”  
in Katowice, a unit accredited by the Polish Centre for Accreditation  
seated in Warsaw within the scope of the Certificate No. AB 024 Annex.***

### B. Complementary (listed in this Test Report) Section

### C. Anomalies (listed in this Test Report) Section

When using the contents of this Test Report, the owner hereof shall state that they use the results produced by the Testing and Calibration Laboratory at the Institutes for Research and Certification "ZETOM" in Katowice, accredited by the Polish Centre for Accreditation in Warsaw.

## 1. BASIS OF TESTING

**1.1. Customer's document title:** Order from Furnika Sp. z o.o. [Limited Liability Partnership] Limited Partnership for the test at the Testing and Calibration Laboratory "ZETOM" in Katowice

**1.2. Customer's document identification:** Order

dated: 10/01/2023

**1.3. Subject:** Testing of compliance to essential requirements

**2. TESTING OBJECTIVE** Control of properties and characteristics against reference standards and according to the Testing Program

## 3. TEST OBJECT

**3.1.** Object designation: Fixed luminaire model LED ALA2 600

**3.2.** Customer: Furnika Sp. z o.o. Limited Partnership, 48-200 Prudnik, Przemysłowa str. 11

**3.3.** Supplier/Manufacturer: Furnika Sp. z o.o. Limited Partnership, 48-200 Prudnik, Przemysłowa str. 11

**3.4.** Place of production: : Furnika Sp. z o.o. Limited Partnership, 48-200 Prudnik, Przemysłowa str. 11

**3.5.** Method of object delivery for testing: delivered by the Customer

**3.6.** Objects collected at: the Customer

**3.7.** Collect Report: -

**3.8.** Date of receiving the test objects: 10/01/2023

**3.9.** Collector's additional labelling applied: -

**3.10.** Object packaging: Cardboard box

**3.11.** In-laboratory labelling of objects:

Object labelling in prior of delivery to the Lab	Labelling of objects made at the Lab <sup>1)</sup>	Notes
Labelling	B/2023/10	_____
directly		
on the product		
(marking plate)		

<sup>1)</sup> Remains the Sample Index

Marking plate

Fixed luminaire model LED ALA2 600

#### 4. TESTING PROGRAM

The Testing Program includes the testing's cope of the following reference standards:

- PN-EN 60598-1:2015-04+A1:2018-04+AC:2016-02 "Luminaires. Part 1: General requirements and tests" **(point. 4.20 and 4.24 verified outside the scope of accreditation)**
- PN-IEC 598-2-1:1994/Ap1:2000 „Luminaires. Special requirements. Fixed general purpose luminaires”

##### Possible evaluation results:

- test description not applicable to the test object ..... : **N** (A)
- test object meets the requirement ..... : **P** (ass)
- test object fails to meet the requirement ..... : **F** (ail)
- not within the scope of testing ..... : - (-)

##### General remarks:

The numbers contained in the parentheses in the column refer to the Sections of PN-EN 60598-1.

"(See note #)" refers to notes appended herein.

"(See Annex #)" refers to Annexes appended herein.

The report refers to complete studies performed for:

Fixed luminaire model LED ALA2 600

##### Technical specifications:

Supply voltage: 230 V~  
Rated mains frequency: 50 Hz  
Max. power consumption: 5 W  
Light source: LED  
IP 44  
Insulation class: II

This test report also applies to the luminaires of the range:

ALA 2 300 CW/NW/WW

ALA 2 400 CW/NW/WW

ALA 2 500 CW/NW/WW

ALA 2 600 CW/NW/WW

Alternative light sources used by the manufacturer in the luminaire in question:

- PD2835NWNNA-PCT
- PD2835CWNA-PCT
- PD2835WWNA-PCT

## 5. MEASUREMENT EQUIPMENT

- Thermohygrometer	nr ident.9200014

- Calliper	nr ident.0120027
- Force meter	nr ident.1001065
- Torque screwdriver	nr ident.1007004
- Torque screwdriver	nr ident.1007003
- Torque spanner	nr ident.1005021
- Torque spanner	nr ident.1005020
- Megohmmeter	nr ident.2700005
- Seconds meter	nr ident.4500001
- INSTEK GPT measuring device	nr ident.1005008
- Pressure testing apparatus	nr ident.1005000
- Laboratory dryer	nr ident.8910002
- Pendulum hammer	nr ident.1005005
- Draughtless chamber	nr ident.8920004
- Universal microscope	nr ident.0520011
- Ruler	nr ident.0110068
- Needle-flame test rig	
- Thermal loop test rig	
- Test site for leakage current	
- IP leakage test facility	

## 6. TEST DESCRIPTION AND RESULTS

### 6.1 Research done by the standards PN-IEC 598-2-1:1994/Ap1:2000

PN-IEC 598-2-1:1994/Ap1:2000			
Section	Requirement - Check	Result	Evaluation
1.1 (0)	<b>SCOPE AND OBJECT</b>		
1.1 (0.2)	Other standards included .....	NO	-
1.4 (2)	<b>CLASSIFICATION</b>		
1.4 (2.2)	Appliance class .....	II	-
	rated voltage over 250 V (not for Class 0)	230 V	-
1.4 (2.3)	Ingress protection rating .....	IP44	-
1.4 (2.4)	Installation on a flammable substrate ....	YES	-
1.4 (2.5)	Classification depending on the conditions of use	Luminaire for normal use	-
1.5 (3)	<b>MARKING</b>		
1.5 (3.2)	Obligatory marking		P
	- marking location		P
	- symbol / text character size		P
1.5 (3.2.1)	The mark of origin		P
1.5 (3.2.2)	Voltage rating in volts.		P
	Where marking is provided in accordance with 3.2.25 or 3.2.26, additional marking of the rated voltage is not required.		N
1.5 (3.2.3)	The rated maximum ambient temperature $t_a$ if different than 25 °C	$t_a = 45 \text{ °C}$	P
1.5 (3.2.4)	Symbol of class II lighting fixtures		P
1.5 (3.2.5)	The symbol of class III lighting fixtures		N
1.5 (3.2.6)	Marking with IP numbers of the degree of protection against penetration of dust, solids and moisture.		P
1.5 (3.2.7)	Model number or type designation		P
1.5 (3.2.8)	Maximum power of light source or maximum power input...		P
1.5 (3.2.8.1)	Luminaires for tungsten filament lamps shall be marked with the maximum rated wattage and number of lamps		N
1.5 (3.2.8.2)	Luminaires designed for non-replaceable or non-user replaceable light sources shall be marked with the rated input power of the luminaire.		N
1.5 (3.2.8.3)	For all other luminaires, the rated wattage of the lamp or the designation as indicated ...		N
1.5 (3.2.9)	Symbol for luminaires unsuitable for mounting directly on normally flammable surfaces		N

PN-IEC 598-2-1:1994/Ap1:2000			
Section	Requirement - Check	Result	Evaluation
1.5 (3.2.10)	Information on special lamps		N
1.5 (3.2.11)	Symbol for luminaires for lamps of a "cold beam" shape		N
1.5 (3.2.12)	Marking of phase, neutral and earthing conductor		P
	Marking of the earthing terminal in class II luminaires		N
1.5 (3.2.13)	The minimum distance from illuminated objects		N
1.5 (3.2.14)	Symbol for luminaires for difficult working conditions		N
1.5 (3.2.15)	Symbol for lighting fittings intended for use with lamps with a reflecting dome		N
1.5 (3.2.16)	Luminaires with protective screens ...		N
1.5 (3.2.17)	The maximum number of lighting fixtures that can be connected to each other ...		N
1.5 (3.2.18)	Symbol or warning in the case of luminaires with impulse starters ...		N
1.5 (3.2.19)	Symbol for luminaires that are designed for use with self-shielding halogen or metal halide bulbs		N
1.5 (3.2.20)	Determining the means of setting, where they are not obvious		N
1.5 (3.2.21)	Symbol in the case of luminaires unsuitable for covering with thermal insulation materials		N
1.5 (3.2.22)	Symbol for luminaires with internal replaceable fuses		N
1.5 (3.2.23)	Warning symbol "Do not stare at the operating light source" for portable and handheld luminaries ...		N
1.5 (3.2.24)	Covers fixed, over non-user replaceable light sources shall be marked 'caution, risk of electric shock'		N
1.5 (3.2.25)	Rated constant input voltage when a luminaire is operated from a constant voltage controlgear not provided with the luminaire		N
1.5 (3.2.26)	Rated constant input current when the luminaire is operated from a constant current controlgear not provided with the luminaire. Luminaires supplied with constant current...		N
1.5 (3.3)	Supplementary information		P
	- completeness of information		P
1.5 (3.3.1)	Combination luminaires		N
1.5 (3.3.2)	Rated frequency	50 Hz	P
	Operating temperature		N
1.5 (3.3.4)	Warning		-
1.5 (3.3.5)	Connection diagram		P

PN-IEC 598-2-1:1994/Ap1:2000			
Section	Requirement - Check	Result	Evaluation
1.5 (3.3.6)	Special requirements		N
1.5 (3.3.7)	Metal halide light source luminaires		N
1.5 (3.3.8)	Lamp use limits		N
1.5 (3.3.9)	Power factor and supply current		N
1.5 (3.3.10)	Intended for indoor use		P
1.5 (3.3.11)	Lamp types compatible with the luminaire design		N
1.5 (3.3.12)	Warning for luminaires with clip mounting		N
1.5 (3.3.13)	Specification of protective guards		N
1.5 (3.3.14)	Power supply type symbol	~	P
1.5 (3.3.15)	Manufacturer's declared current value		N
1.5 (3.3.16)	Information about heavy duty luminaires		N
1.5 (3.3.17)	Installation instructions for luminaires with type X, Y or Z mounting		N
1.5 (3.3.18)	Notice		N
1.5 (3.3.19)	For luminaires which generate wiring current at ...		N
1.5 (3.3.20)	Wall-mounted and adjustable luminaires not intended for ...		N
1.5 (3.3.21)	Luminaires with non replaceable and non-user replaceable light source, the instruction sheet shall contain ...		
	- replace of the light source when the light source reaches its end		P
	- replace of the light source by the manufacturer, or a qualified person		N
1.5 (3.3.22)	Controllable luminaires		N
1.5 (3.3.23)	Luminaires delivered without controlgear shall be provided with the necessary information for the selection of the appropriate component...		N
1.5 (3.3.24)	Where the terminal block is not supplied with the luminaire, the packaging shall contain the following wording		N
1.5 (3.3.101)	The package contains text		P
1.5 (3.4)	Marking check		P
	Water test		P
	Petroleum solvent test		P
	- legibility after testing		P
	- adhesion of label stickers		P
1.6 (4)	<b>CONSTRUCTION</b>		
1.6 (4.2)	Easily replaceable parts		N
1.6 (4.3)	Wire routing		P
1.6 (4.4)	Lampholders
