- On <a href="https://www.ngbc.no">www.ngbc.no</a> under "Frequently asked questions" there is help in assessing different known emission certificates against the requirements in NS-EN 15251.
- Note that the emissions here are measured in mg/m²h. Most emission certificates use mg/m³. There is a way to convert these units in order to compare the results. Your preferred laboratory can help you with this.
